

REMARKS

Applicants provisionally elect Group I, Claims 1-10, with traverse. Although Claims 1-10 are drawn to a method of making a solid homogeneous mixture, and Claims 11-20 (Group II) are drawn to a method of forming a mixture of powders, it is believed that the same classes should be searched in the U.S. Patent and Trademark Office. Therefore, no additional work is imposed upon the U.S. Patent and Trademark Office and these claims should be searched together.

The requirement for restriction grouped claims 12-20 with Group I. Since these claims are dependent upon claim 11 of Group II they should have been included along with it.

Claim 1 has been amended to correct a numbering error.

If the Examiner has a problem with this response, he is invited to call the undersigned.

Respectfully submitted,

Attorney for Applicant(s)
